

PUEBLO OF LAGUNA

(b) (6)

June 12, 1989

Mr. Ronald Solimon, Chairman
Reclamation Committee
Pueblo of Laguna
P.O. Box 194
Laguna, NM 87026

Dear Sir:

The purpose of this letter is to express my interest in the Reclamation Project Manager position that was announced in the Albuquerque Journal on June 11, 1989.

I am a tribal member of the Pueblo of Laguna and am presently working as a Cost/Schedule Engineer for the Jacobs Engineering Group working on a Department of Energy (DOE) project called the Uranium Mill Tailings Remedial Action (UMTRA) Project. In this position I provide budget, scheduling and variance analysis to cost account managers. Prior to this, I worked for the Westinghouse Electric Corp. on another DOE project called the Waste Isolation Pilot Plant (WIPP) Project. As a Staff Assistant I performed a budget analyst function as well as numerous other administrative jobs in the Environmental, Health & Safety (EH&S) and Administrative Services Departments.

The reason for coming to Jacobs Engineering was to work on the Jackpile Project and have some involvement with the Pueblo while maintaining my duties with the UMTRA Project. Over the past several months I have had the opportunity to work on the Jackpile Project and watch it grow. This has increased my desire to be more involved with the Pueblo on the Jackpile Project, which is my reason for writing.

I would like to set up an appointment with you to discuss my qualifications and the possibilities of working for the Pueblo of Laguna.

I can be reached at (b) (6) Monday through Friday from 8:00 am to 5:00 pm. I look forward to an interview.

Sincerely,

(b) (6)

Enclosure
